ACTIVITIES

PLENARY MEETING

COMPARISON OF THE DATA -MARCH 2021

During the first meeting, in which all the classes will be involved, the data collected by the students in March 2021 will be compared.

Two pupils from each school will report the collected data, we will complete a table that will be shared with everyone during the meeting and later will be available to all students.

CLASSES' MEETINGS

1 – HELLO! - VIDEO PRESENTATION OF THE CLASS

Each class prepares a video of up to 2 minutes in which each student introduces himself (name, class, a greeting).
At the beginning of the meeting, each class presents their greeting video to the other.

2 – TOPIC – PRESENTATION OF A TOPIC

Students share information relating to the chosen topic (also with the help of online presentations). They ask and answer peers from the partner school about the topic.

TOPICS

TOPIC	POSSIBLE IDEAS
OUR SCHOOL	<ul style="list-style-type: none">• School system in our country: subjects, activities, school time...
OUR VILLAGE/TOWN	<ul style="list-style-type: none">• Sharing information about our village/town
OUR CONSTELLATION	<ul style="list-style-type: none">• The class invents its own constellation and a myth linked to it
EVERYDAY LIFE/HOBBIES	<ul style="list-style-type: none">• Sharing info about hobbies and activities

3 - CONSTELLATION CHALLENGE

During the meeting the two classes will compete in a quiz, via the Kahoot platform, which will have the constellations as its topic.
This quiz will be prepared by the coordinator school.

4 - GUIDED TOUR OF THE SCHOOL

In the last part of the meeting 2/3 students, with a teacher from each school, first one class and then the other, will show their school to classmates with whom they held the meeting, moving around the building with a tablet or a mobile phone.
Alternatively, you can share a short video or photo slideshow.
